RC

RIBEIRO
DE CARVALHO
ARQUITECTOS

Established in 2007 in order to give sequence to the activities of Architects João Ribeiro de Carvalho and Miguel Ribeiro de Carvalho in their own studio and in collaboration with other offices.

Its action is based on a team organised in such a way as to respond to the needs of all kinds of projects in the field of Architecture, Urbanism, Interiors and Design, using the assistance of collaborators and firms with recognized technical and professional competence suited to each case.

Projects are developed from conception to final construction stage, focusing on detailing and definition of materials within the framework of the Construction Site Project as a guarantee of compliance with the adopted solutions, the proper execution of construction work and a rigorous cost control.

The modelling of space, in the embodiment of a program to be inserted within a given environment, is always studied in collaboration with the necessary technical expertise. Thus, we always consider in the framework of assignments the coordination of complementary engineering projects and supervising the proceedings within the official licensing bodies.

Our long experience at the level of project conception and construction, combined with a constant updating with regards to offering new solutions and materials, and the use of work tools and more accurate technical tools, allows us to create innovative proposals which seek to satisfy the client’s objectives.

This Studio also includes a technical team responsible for all the specialties within the scope of the following areas:

- Stability
- Excavation and retaining walls
- Networks and water, sewage and building water
- Gas networks
- Supply and distribution of electricity and telecommunications
- Study of thermal behaviour
- Sustainability and energy efficiency of buildings
- Air conditioning and ventilation
- Electromechanical installations transportation of people and goods
- Fire Safety
- Acoustics
- Health and Safety Plan
- Integrated Security
- Industrial Licensing
- Certification
- Road works and remaining Infrastructure
- Outdoor planning / Landscaping
- Coordination and Supervision of construction
-Landscaping
-Supervision

We have as partners in all these areas of expertise the following companies:

- A2P Studies and Projects
- Actoin Modulers
- Arqout
- Ar Verde
- Betar - Studies and Projects
- Campo d´água - Engineering and Management Ltd
- Ceta SA
- Engipinhal
- Engiprior
- Global - Landscape Architecture
- Grese
- Guedol

João Ribeiro de Carvalho

Lisbon 1951.
Graduated in Architecture from the Escola Superior de Belas Artes de Lisboa (ESBAL), in 1977 with a final grade of fifteen. Being a member of the Portuguese Order of Architects (OAP) Nº 1030.

PROFESSIONAL EXPERIENCE
- Worked as a project designer in the studio of architects Jorge Soares de Oliveira and Luisa D'Orey, 1972 to 1975.
- Worked as a project designer in the studio of architect Manuel Magalhães, from 1975 to 1982, integrating the technical teams of the SAAL for urban renovation and monitoring of the construction of the D. Leonor and Quinta do Alto Lisbon Neighborhoods.
- Worked as a project designer at Intergaup – Gabinete de Arquitectura, Urbanização e Planeamento, Ltd., since its foundation in 1981 to 1986.
- Consultant and project designer for Nacional – Companhia Industrial de Transformação S.A., from 1984 to 2004, being responsible for the rehabilitation of Convento do Beato in Lisbon.
- Consultant to the studio CPU - Urbanistas e Arquitectos from 1984 to 2004.
- Consultant and project designer for Sofinac – Sociedade de Gestão e Investimentos Imobiliário, S.A. from 1988 to 1993.
- Consultant and project designer for Centro de Reabilitação do Alcoitão from 1992 to 1994.
- Consultant and project designer for Hospital Ortopédico de Sant'ana, from 1992 to 1995.
- Consultant and project designer for Compal / Frize from 1993 to 2008.
- Consultant and project designer for Nutricafés from 2003 to 2011.
- Consultant and project designer for Sugal Idal from 2007 to 2011.
- Consultant and project designer for OTO Arquitectos since 2007.
- In a co-authored regime with Arch. Carmo Mouzinho from 1990 to 2007.

Develops architectural projects in the area of Architecture, Urban Planning, Equipment and Services in own studio since 1973, Founding in 2007 the Studio Ribeiro de Carvalho Arquitectos.

Miguel Ribeiro de Carvalho

Lisbon 1980.

Began to study Architecture at the Universidade Lusíada of Lisbon in 1998. Having studied one year at the Politecnico di Milano and subsequently graduating from the Universidade Autónoma of Lisbon in 2005, Being a member of the Portuguese Order of Architects (OAP) Nº 14875.

In his professional career, collaborates with architects Fernando Sanchez Salvador and Margarida Nunes Grácio and with artist Jose Barrias, in Milan, Italy. In 2004 he founds the studio OTO Architects and since 1997 develops projects together with João Ribeiro de Carvalho, founding in 2007 the studio Ribeiro de Carvalho Architects.

In 2009 was present with OTO Architects at the WAF, World Architectural Festival in Barcelona, with the project for the Headquarters of the Ilha do Fogo National Park, in Cape Verde, having made part of the submitted project shortlist.This same project is a candidate for the National Architecture Prize of Cape Verde in 2013.

During the course of his activity, prepares projects in the areas of Urban Planning, Architecture and Design in Portugal, Cape Verde, Angola and Mozambique, with special note to the expansion plan to six Mozambican cities (Casa Merecida), the project of two hundred and ninety-four Social housing Interest dwellings (Casa para Todos Boavista 3) in Cape Verde and the rehabilitation of the Hotel Central and Café Paris in Sintra, Portugal.

- Consultant and project designer for Nutricafés since 2007.
- Consultant and project designer for Compal / Frize since 2007.
- Consultant and project designer for Sugal Idal since 2007
- Consultant and project designer for Iguarivarius since 2010.
